From: Bruce Entwistle
 Chief, Aviation and Space Weather Services Branch

Subject: Suspension of the Mayaguez, Puerto Rico (TJMZ) TAF: Effective
September 14, 2020

Note: The following changes have no impact on NOAA Weather Wire Service
subscribers.

Effective Monday, September 14, 2020 at 1200 Coordinated Universal Time
(UTC), NWS San Juan, Puerto Rico will officially suspend the Mayaguez
(TJMZ) Terminal Aerodrome Forecast (TAF) due to no METAR observation
available at that airport. Part of keeping a TAF under constant review,
per the International Civilian Aviation Organization (ICAO), requires an
observation (METAR). Upon resumption of scheduled observations, in
compliance with Federal Aviation Administration orders and regulations at
the Mayaguez (TJMZ) Airport, the San Juan office will resume normal TAF
service.

For questions regarding this suspension, please contact:

Roberto Garcia-Hiraldo
Meteorologist-in-Charge
NWS San Juan, Puerto Rico
Carolina, PR
787-253-4586, x 222
