Subject: Soliciting Comments on the Experimental Hawaiian Extended Range Forecast Webpage until January 12, 2024

On or about December 12, 2023 through January 12, 2024, the National Centers for Environmental Prediction (NCEP) Climate Prediction Center (CPC) will be soliciting comments on the Experimental Hawaiian Extended Range Forecast Webpage.

The experimental Hawaiian Extended Range Forecast Webpage builds on and provides more localized information related to the official 6-10 Day and 8-14 Day temperature and precipitation outlooks. This experimental webpage provides an expanded suite of forecast graphics, while adding station-specific information containing probabilistic and deterministic forecast information.

The official 6-10 and 8-14 Day temperature and precipitation outlooks, respectively, may be found here:

https://www.cpc.ncep.noaa.gov/products/predictions/610day/

https://www.cpc.ncep.noaa.gov/products/predictions/814day/

The experimental product can be accessed at the following URLs, for the 6-10 Day and 8-14 Day forecast periods, respectively:

A description of the experimental product, its scientific basis, and examples can be found at the following link:

https://nsdesk.servicenowservices.com/api/g_noa/nwspc/res2/b458c92f1b2a7d10b13387bae54bcb1b
Comments on the Experimental Hawaiian Extended Range Forecast Webpage can be submitted until January 12, 2024 via the following survey:

https://www.surveymonkey.com/r/exp_HI_Ext_Range_Fcst_Webpage

Additional Comments may be sent to:

Jon Gottschalck
Chief, Operational Prediction Branch
Climate Prediction Center
jon.gottschalck@noaa.gov
