Service Change Notice 23-09 Updated  
National Weather Service Headquarters Silver Spring MD  
540 PM EDT Thu Oct 19 2023

To:           Subscribers:  
              -NOAA Weather Wire Service  
              -Emergency Managers Weather Information Network  
              -NOAAPort  
              Other NWS Partners, Users and Employees

From:         Terrance J. Clark, Director  
              WSR-88D Radar Operations Center

Subject: Updated: NWS Will Cease Dissemination of WSR-88D Legacy  
Precipitation Processing System (PPS) Products on or about September 27,  
2023

Updated to reinstate the Hourly Digital Precipitation Array (DPA) product.  
This DPA product is being reinstated as the River Forecast Centers' Multi-  
Sensor Precipitation Estimation (MPE) capability has a critical dependency  
on this data. The Water Resources Program will work to incorporate the  
DAA product at which time the DPA will be removed from dissemination.

Otherwise, there are no changes to the removal of the PPS products  
mentioned in the previous update of Service Change Notice (SCN) 23-09,  
located at:

[https://www.weather.gov/media/notification/pdf\\_2023\\_24/scn23-09\\_legacy\\_pps\\_qpe\\_products\\_removal\\_aaa.pdf](https://www.weather.gov/media/notification/pdf_2023_24/scn23-09_legacy_pps_qpe_products_removal_aaa.pdf)

NWS partners and users should take the appropriate action to ensure  
systems recognize this change.
