Subject: Updated: Soliciting Comments on the Experimental Standardized  
Weather Forecast Office (WFO) Avalanche Weather Webpage at 18 WFOs  
through April 30, 2026

Updated to extend comment period through April 30, 2026.

The NWS is soliciting comments on the experimental standardized WFO  
Avalanche Weather Webpage through April 30, 2026 at 18 WFOs. These WFOs  
are: Gray, ME; Burlington, VT; Albuquerque, NM; Riverton, WY; Boulder,  
CO; Pocatello, ID; Salt Lake City, UT; Pendleton, OR; Boise, ID; Great  
Falls, MT; Las Vegas, NV; Spokane, WA; Medford, OR; Missoula, MT;  
Portland, OR; Anchorage, AK; Fairbanks, AK; and Juneau, AK. The Boulder,  
CO office will produce the webpage for all of Colorado.

A standardized version of an avalanche weather webpage ensures each local  
WFO web page is consistent with one another, thereby increasing the  
visibility and accessibility of NWS avalanche weather information.

The webpages will be available at the following links:

National Landing Page:

A Product Description Document for the Experimental WFO  
Avalanche Weather Webpage is provided online:

[https://nsdesk.servicenowservices.com/api/g\\_noa/nwspc/res2/0810b4298708be104b0fa8a60cbb350d](https://nsdesk.servicenowservices.com/api/g_noa/nwspc/res2/0810b4298708be104b0fa8a60cbb350d)

The NWS is seeking comments on the Experimental Local WFO Avalanche  
Weather Webpage through April 30, 2026 via online survey:

<https://www.surveymonkey.com/r/ExpStandardizedWFOAvalancheWeatherWebpages2025-2026>

If feedback concerning the experimental webpage is favorable, then it  
will be considered for additional development and operational  
implementation.

If you have questions or comments regarding the Experimental Standardized  
Local WFO Avalanche Weather Webpage, please contact:
