              Other NWS Partners, Users and Employees

From:       David Michaud, Director  
              NCEP Central Operations

Subject: NCEP Central Operations (NCO) Critical Weather Day  
(CWD) Status Webpage Update: Effective on or about 1800 UTC  
April 28, 2025

The NCEP Central Operations (NCO) Critical Weather Day (CWD)  
status web page will be updated on or about 1800 UTC April 28,  
2025.

The CWD web page, available at  
<https://www.nco.ncep.noaa.gov/status/cwd/>, will be updated to  
include the following enhancements: 1) an hourly timeline of  
current and expected critical weather status for the next 3  
days, 2) larger graphics, and 3) continuous 1-minute updates of  
active alerts.

The changes should have limited or no impact on general users,  
but those relying on scripts to pull information from the site  
can test against the quality assurance test page at  
[https://www.nco.ncep.noaa.gov/status/cwd/index\\_test.php](https://www.nco.ncep.noaa.gov/status/cwd/index_test.php) prior to  
the implementation date.

For questions or comments, please contact:

Robert Handel, Senior Duty Meteorologist Team Lead  
NCEP Central Operations
