 -Emergency Managers Weather Information Network
 -NOAAPort
 Other NWS Partners, Users and Employees

From: David Michaud
 Director, NCEP Central Operations

Subject: Termination of UKMET Data on the Satellite Broadcast Network:
Effective December 8, 2025

Effective on Monday, December 8, 2025, at 1200 UTC, the National Centers for Environmental Prediction (NCEP) Central Operations will cease the transmission of UKMET data on the Satellite Broadcast Network (SBN). This data is currently in GRIB1 format at 1.25-degree resolution.

The following WMO headers will no longer be transmitted on the SBN:
H[HTRUV][I-P][A-Z][0-9][0-9] EGRR.

This data is being discontinued by the UKMET office and will no longer be available.

The 1.0-degree data available at 00z and 12z with headers HPY[A-Z][0-9][0-9] EGRR will still be available.

In the event that the implementation date is declared a Critical Weather Day (CWD), an Enhanced Caution Event (ECE), or other significant weather is occurring or is anticipated to occur, implementation of this change will take place at 1200 UTC on the next weekday not declared a CWD and when no significant weather is occurring.

For questions about the dataflow aspects, please contact:

Holly Uhlenhake
NCEP Central Operations IDP Dataflow Team Lead
ncep.pmb.dataflow@noaa.gov
