Subject: Probabilistic Tropical Cyclone Storm Surge (P-Surge) Model
Testing June 1, 2026

On June 1, 2026, the National Hurricane Center (NHC) and National Weather Service (NWS) Central Operations (NCO) will conduct a Probabilistic Tropical Storm (P-Surge) model test. The test will be conducted between 1400 and 1600 UTC and will focus on testing dataflow and checking the inclusion of changes for the 2026 hurricane season that were outlined in a previous SCN:

https://www.weather.gov/media/notification/pdf_2026/scn26-41_Updated_PSurge_v3_2_0.aaa.pdf

The data from these p-surge tests will be available on the NOMADS and p-surge webpages as follows:

NOMADS -
<https://nomads.ncep.noaa.gov/pub/data/nccf/com/psurge/para/>
<https://nomads.ncep.noaa.gov/pub/data/nccf/com/psurge/prod/>

P-Surge -
<https://slosh.nws.noaa.gov/psurge>

Any p-surge data posted to the two webpages listed above on June 1, 2026 should be considered test data.

P-surge testing will continue periodically throughout the season.
