Service Change Notice 26-92
National Weather Service Headquarters Silver Spring MD
240 PM EDT Thu Oct 22 2026

To: SUBSCRIBERS:
-NOAA Weather Wire Service
-Emergency Managers Weather Information Network
-NOAAPort
Other NWS Partners, Users and NWS Employees

From: Dave Michaud
Director, NWS Central Operations (NCO)

Subject: Decommissioning of iNWS websites Effective Immediately.

Effective immediately the iNWS (<https://inws.ncep.noaa.gov/>) website has been decommissioned due to identified cybersecurity vulnerabilities.

Users of iNWS currently receiving alerts will continue to receive them. Current iNWS alerts will not include a map inserted in emails, and the link in the text messages will not function. No new users will be able to register and any existing subscription details will be unable to be changed. NWS continues to develop a replacement for the current iNWS alerts system that will continue to incorporate partner feedback.

The iNWS report website (<https://inws.ncep.noaa.gov/report/>) has also been decommissioned. To submit storm reports to the local office go to [weather.gov](https://www.weather.gov) and search for the local NWS forecast office in your area (e.g. [weather.gov/xxx](https://www.weather.gov/xxx)). The local office will have more information on alternative storm report means. When ready, a replacement storm report webpage will be announced publicly.
