SUBJECT: NWS Telecommunications Gateway/NWSTG/Outage Scheduled  
for June 7, 2011

To support the update of critical NWSTG hardware, a 60 to 75 minute outage of services will be experienced starting about 1230 Coordinated Universal Time (UTC) on June 7 2011. This outage will be delayed if Critical Weather is forecast.

Impacted services will include Family of Services, socket services, other services to partners, as well as public internet and file transfer protocol servers with the uniform resource locators of:

<http://weather.noaa.gov>  
<ftp://tgftp.nws.noaa.gov>

During the outage, these services will become unavailable or have delayed delivery of NWS products.
