PNSWSH

Public Information Notice  
National Weather Service Headquarters Washington DC  
110 PM EST Thu Feb 24 2011

To: NWS Offices  
Federal Aviation Administration Users  
Family of Services Subscribers  
Other Users of NWS Aviation Forecasts

From: Cynthia Abelman  
Chief, Aviation Services Branch

Subject: Collaborative Convective Forecast Product  
(CCFP) Production Schedule for 2011:  
Effective March 01 2011

Note: The following changes have no impact on NOAA Weather  
Wire subscribers

Start time for the initial 2011 CCFP is 0300 EST on Tuesday  
March 1, 2011. As in the past, forecasts will be issued every  
2 hours and contain a forecast valid for 2, 4 and 6 hours.  
Forecasts will coincide with the ATCSCC strategic planning team  
teleconferences, issued daily beginning at 0300, and concluding  
at 2100 EST.

The concluding forecast for the 2011 convective season will be  
issued on Monday, October 31, 2011 at 1900 EDT.

CCFP production system testing will occur on February 25 and 28  
2011, at 0900, 1100 and 1300 EST. Testing will include  
opening the chat and transmission of null ASCII coded messages.

There will be no changes to the forecast hours, coverage  
definitions, or text boxes this year.

The CCFP is available via the NWS Telecommunications Gateway  
circuit in an ASCII coded text format under the following WMO  
communications headers.

FAUS27 KKCI  
FAUS28 KKCI  
FAUS29 KKCI
