Subject: Soliciting Comments until November 30, 2011, on the
Storm Prediction Center's (SPC) Experimental
Probabilistic Day 3-8 Fire Weather Outlooks for the
Conterminous U.S. (CONUS)

NWS is accepting comments until November 30, 2011, on the SPC's
experimental Probabilistic Day 3-8 Fire Weather Outlooks for the
CONUS. Comments concerning these experimental graphics are
welcome via the following url:

<http://www.weather.gov/survey/nws-survey.php?code=spc38firewx>

The two experimental Probabilistic Fire Weather Outlook graphics
are:

- Probability of Dry Thunderstorms Fire Weather Outlook
(Days 3-8)
- Probability of Strong Winds, Low Relative Humidity (RH), and
Warm Temperatures Fire Weather Outlook (Days 3-8)

These products are available for the CONUS on the SPC Day 3-8
Fire Weather Forecast web page:

http://www.spc.noaa.gov/products/exper/fire_wx/

More details regarding these elements are available online in a
Product Description Document (PDD) at:

<http://products.weather.gov/detaile.php?selrow=434>
