          -Emergency Managers Weather Information Network  
          -NOAAPORT  
          Other NWS Partners and Employees

From:     Richard J. Vogt  
          Director, WSR-88D Radar Operations Center

Subject:  Suspension of Operational Field Test of WSR-88D  
          2-Dimensional Velocity Dealiasing Algorithm

The operational field test of the Weather Surveillance Radar-1988, Doppler (WSR-88D) 2-Dimensional Velocity Dealiasing Algorithm (VDEAL) at 13 sites has been suspended. During the test, software impacts not observed during previous testing were encountered. See the link below for the original notice:

[http://www.weather.gov/os/notification/pns11radar\\_test.htm](http://www.weather.gov/os/notification/pns11radar_test.htm)

We regret any inconvenience this has caused. The WSR-88D Radar Operations Center is working to diagnose and correct the problem. We will issue an announcement when the operational field test will be resumed.

If you have questions or comments, please contact:

Dave Zittel  
WSR-88D Radar Operations Center  
Walter.D.Zittel@noaa.gov  
or
