Subject: Final Policy on Provision of Environmental Information Services
Supporting Mobile Devices: Effective April 16, 2011

On April 16, 2011, NWS signed internal policy document NWS Instruction (NWSI) 1-1003, Provision of Environmental Information Services Supporting Mobile Devices. This document describes the NWS approach for providing environmental information services supporting mobile devices and provides procedural guidelines to ensure these services are developed in a manner that adheres to appropriate U.S. government policies and maximizes the effectiveness of NWS resources.

The public was given an opportunity to review and comment on a draft version of this document. Based on this review, as well as review internal to NWS, a final document was developed. Both the final policy document and an analysis of comments received may be accessed at:

<http://www.weather.gov/sp/mobilepolicy.htm>

Content of the policy document represents the best efforts of NWS to recognize the views of internal interests as well as the views of others in the weather enterprise.
