Subject: Soliciting Comments on the NWPS Model Experimental Output through  
June 30, 2014

The NWS is seeking user comments on the Nearshore Wave Prediction System  
(NWPS) Model Experimental Output through June 30, 2014.

The NWPS wave model is run locally and used operationally at many coastal  
Weather Forecast Offices (WFOs). NWS displays experimental NWPS output  
products on the Southern Region coastal WFO websites and the Southern  
Region Headquarters website. Output includes displays of winds,  
significant wave height and peak wave direction as well as other wind,  
wave, and ocean parameters.

NWPS model output displays are online at:

<http://innovation.srh.noaa.gov/swan/>  
<http://www.srh.noaa.gov/mfl/?n=swan>

A description of the NWPS model output is online at:

[www.products.weather.gov/PDD/PDD%20NWPS%20Model%20Output%20060413.pdf](http://www.products.weather.gov/PDD/PDD%20NWPS%20Model%20Output%20060413.pdf)

Users are encouraged to provide feedback on this experimental product by  
using the brief survey and comment form at:

<http://www.nws.noaa.gov/survey/nws-survey.php?code=SWNMO> or provide  
comments directly to [richard.may@noaa.gov](mailto:richard.may@noaa.gov).

At the end of the comment period, NWS will then decide whether to  
transition the product to nationwide operational status, extend the  
comment period, or discontinue the product.

For questions regarding this notice, please contact:
