Subject: Improvements to Experimental Probabilistic Hurricane
Inundation Surge Height (PHISH) Products Effective
July 25, 2013

The Experimental Probabilistic Hurricane Inundation Surge Height (PHISH) product, formally known as the Experimental Probabilistic Tropical Cyclone Inundation Guidance Products, has been improved and moved to a new URL as of July 25, 2013. The PHISH products are described in a Public Information Statement at:

<http://www.nws.noaa.gov/os/notification/pns13phish.htm>

and is available for public comment through November 30, 2013.

The PHISH guidance products now have tide included in their output. They can be accessed via:

<http://www.nws.noaa.gov/mdl/psurge2.0>.

Users are encouraged to provide feedback on these experimental products by using the brief survey and comment form available online at:

<http://www.weather.gov/survey/nws-survey.php?code=phss>
