-Emergency Managers Weather Information Network
-NOAAPORT
Other NWS Partners and NWS Employees

From: Iftikhar Jamil
NWS Chief Information Officer

Subject: Amended: Soliciting Comments on the Adaptable NWS
Forecast/Observation Widget through August 2015

Amended to expand to national scope and to extend the comment
period through August 2015

NWS is seeking user comments on the Adaptable NWS Forecast/
Observation Widget through August 22, 2015. The NWS is testing a
new Widget and Adaptable Web Page service. The service brings
together NWS forecast and warning data in a package that allows
web developers to embed NWS information in their pages quickly
and easily as a widget. In addition, the same code, when viewed
in a web browser on device (e.g. smartphones, tablets and desktop
computers), will adapt automatically to the screen's size.

A description of how to use the widget and a link to the stand-
alone adaptable web page version can be found at this address:

<http://innovation.srh.noaa.gov/NWSwidget/about.php>

Users are encouraged to provide feedback on this experimental
product by using the brief survey and comment form online at:

<http://www.nws.noaa.gov/survey/nws-survey.php?code=FWOWW>

You may obtain more information on this product online at:
