 Director, Weather Prediction Center

Subject: Solicitation of comments on the Experimental Day 4-7
 Winter Weather Outlook starting December 1, 2015
 through March 31, 2016

The National Centers for Environmental Prediction's (NCEP) Weather Prediction Center (WPC) is soliciting comments on the Experimental Day 4-7 Winter Weather Outlook. WPC will begin issuing the product on an experimental basis December 1, 2015. The experimental Day 4-7 Winter Weather Outlook is a graphical forecast depicting the probability of winter precipitation (snow/sleet) exceeding 0.25 inches (~6 mm) water equivalent over a 24-hour period. The product is comprised of 4 separate graphics showing the forecast for Day 4, Day 5, Day 6, and Day 7. The product is prepared twice daily by 9 UTC and 21 UTC.

Starting December 1, 2015, graphical representations of the products will be available online at:

http://www.wpc.ncep.noaa.gov/wwd/pwpcf_d47/pwpcf_medr.php

The electronic survey as listed on the WPC webpage can be found at the following:

www.nws.noaa.gov/survey/nws-survey.php?code=D47WWO

This product is in the new and enhanced products/services catalog at the following:
