 Other NWS Partners, Users and Employees

From: Michelle Hawkins, Acting Chief
 Marine, Tropical and Tsunami Services Branch

Subject: Soliciting Comments on the Gulf Stream Forecast Webpage until
December 30, 2016

The NWS is seeking comments until December 30, 2016, on the Experimental
Gulf Stream Forecast webpage from the NWS Weather Forecast Office (WFO) in
Miami, FL:

[http://innovation.srh.noaa.gov/nwps/nwpsloop.php?site=MFL&loop=Miami Freep
ort&cg=1](http://innovation.srh.noaa.gov/nwps/nwpsloop.php?site=MFL&loop=Miami_Freep
ort&cg=1)

WFO Miami will display the graphs daily. The graphs will show the Gulf
Stream current, significant wave height, wind speed, and peak wind
direction at three-hourly time periods for locations along the Atlantic
side of south Florida.

More detailed information is available in the product Description Document
(PDD) online at:

<http://products.weather.gov/viewExperimental.php?selrow=568>

Please provide comments by December 30, 2016 at:

www.nws.noaa.gov/survey/nws-survey.php?code=GSSRF

During this comment period, the NWS will consider expanding the scope of
this service to other Gulf Stream locales and beyond Gulf Stream locales.
At the end of the comment period, the NWS will make a decision whether to
transition to operational, extend the comment period, or to discontinue
the product.
