Subject: Corrected: Transfer of Hydrologic Services for the Bear
River in Idaho: Effective January 12, 2011

Corrected to Change the heading in Table 1 from County
Identifier to Location Identifier.

Effective Wednesday, January 12, 2011, at 0800 AM Mountain
Standard Time (MST), 1500 Coordinated Universal Time (UTC),
hydrologic service responsibility for river forecast locations
along the Bear River in Bear Lake and Franklin Counties, ID,
will be transferred to WFO Pocatello (WFO PIH) from WFO Salt
Lake City (WFO SLC). These changes will align Hydrologic
Service Areas and County Warning Areas to enable more efficient
service. See Table 1 for details on the river forecast points
to be transferred to WFO Pocatello from WFO Salt Lake City on
January 12, 2011.

Because of this transfer, customers must take appropriate action
to receive the products listed in Table 2 for Bear River
forecast points in Bear Lake and Franklin Counties in Idaho
using the PIH identifier.

Updated hydrologic service area shapefiles are online at:
<http://www.weather.gov/geodata/catalog/hydro/html/hsa.htm>
