From: Eli Jacks
 Chief, Fire and Public Weather Services Branch

Subject: Corrected: Implementation of Improved Fire and Public
Weather Coverage for Southwest Louisiana: Effective December 15,
2011

Corrected to remove the Watch County Notification (WCN) product
from the list of affected products.

http://www.srh.noaa.gov/lch/?n=cameron_zonereconfig

The WCN product is a Universal Geographic Code (UGC) "C" coded
product, not a UGC "Z" coded product, and is not affected by
this change.

Effective Thursday, December 15, 2011, at 1200 pm Central
Standard Time (CST), 1800 Coordinated Universal Time (UTC), the
NWS Weather Forecast Office (WFO) in Lake Charles (LCH), LA,
will reconfigure its fire and public weather forecast zone for
Cameron (LAZ051) Parish in southwest Louisiana.

This reconfiguration will provide better forecast services by
splitting this parish into separate western and eastern fire and
public weather forecast zones due to the large meteorological,
climatological, and geographical differences from west to east.

The fire and public weather forecast zone for Cameron (LAZ051)
Parish will be split to form West Cameron (LAZ073) and East
Cameron (LAZ074). This split will account for tropical cyclone,
fire weather, and winter weather impacts that only affect one
portion of this parish and not the other.

These changes require partners and users to take appropriate action to receive the new zone products using the Universal Geographic Code (UGC) zone code format (Z) listed in Table 1.

Table 1. New Fire and Public Zone Configuration Identifiers

NEW FIRE/PUBLIC ZONE NAME -----	UGC (Z) -----	EXISTING FIRE/PUBLIC ZONE NAME -----	UGC (Z) -----
WEST CAMERON	LAZ073	CAMERON	LAZ051
EAST CAMERON	LAZ074	CAMERON	LAZ051

More detail regarding this change, including greater detail regarding why these fire and public zone changes are being made, graphical depictions of the current and new fire and public zones and a table of affected WFO LCH products is available online at:

http://www.srh.noaa.gov/lch/?n=cameron_zonereconfig

Updated fire and public weather forecast zone shapefiles are online at:

www.weather.gov/geodata/catalog/wsom/html/pubzone.htm and
www.weather.gov/geodata/catalog/wsom/html/firezone.htm
