Subject: Sheltered Waters along Part of North Carolina Coastline will
Transfer from Marine Zones to Fire and Public Zones: Effective April 2,
2013

Effective Tuesday, April 2, 2013, at 2 PM Eastern Daylight Time (EDT), 1800 Coordinated Universal Time (UTC), the NWS Weather Forecast Office (WFO) in Wilmington, NC, will transfer its sheltered waters (i.e., the intracoastal waters, tidal creeks, etc.) from marine zones (AMZ250 and AMZ252) to fire zones (NCZ106, NCZ108, and NCZ110) and public zones (NCZ106, NCZ108, and NCZ110). In addition, the sheltered portion of marine zone AMZ158 that extends south of the Onslow/Pender county line into WFO Wilmington's area of responsibility will transfer to fire zone NCZ106 and public zone NCZ106. This marine area was incorrectly included in marine zone AMZ158, Coastal Waters from Cape Lookout to Surf City, NC, out 20 NM.

All these waters are between the Onslow/Pender county line (near Surf City, NC) and the Little River Inlet, SC (near the NC/SC border) and are sheltered from the Atlantic Ocean. Their weather is more like the adjacent fire and public zones than the marine zones they are currently in. The modified zones are listed in Tables 1 and 2 below. WFO Wilmington will continue to issue forecasts and warnings for the modified zones in Tables 1 and 2 via the products in Table 3.

Table 1: Marine Zones Being Modified. The Zone Names and Universal Geographic Codes (UGCs) Will Not Change

Marine Zone Name -----	UGC ---	Comment -----
Coastal Waters from Cape Lookout to Surf City, NC out 20 nm	AMZ158	Removes waters south of Onslow/Pender county line sheltered from the Atlantic Ocean
Coastal Waters from Surf City to Cape Fear, NC out 20 NM	AMZ250	Removes waters sheltered from the Atlantic Ocean
Coastal Waters from Cape Fear, NC to Little River Inlet, SC out 20 NM	AMZ252	Removes waters sheltered from the Atlantic Ocean

Table 2: Fire and Public Zones Being Modified. The Zone Names and UGCs will not change.

Fire Zone Name -----	UGC ---	Comment -----
Coastal Pender	NCZ106	Now includes waters sheltered from the Atlantic Ocean
Coastal New Hanover	NCZ108	Now includes waters sheltered from the Atlantic Ocean
Coastal Brunswick	NCZ110	Now includes waters sheltered from the Atlantic Ocean

Public Zone Name -----	UGC ---	Comment -----
Coastal Pender	NCZ106	Now includes waters sheltered from the Atlantic Ocean
Coastal New Hanover	NCZ108	Now includes waters sheltered from the Atlantic Ocean
Coastal Brunswick	NCZ110	Now includes waters sheltered from the Atlantic Ocean

This change also affects WFO Wilmington's County and County Warning Area (CWA) shapefiles.

Partners and users providing NWS forecasts must download updated map shapefiles to correctly provide forecasts for the sheltered waters along part of North Carolina's coastline between Onslow/Pender county line (near Surf City, NC), and the Little River Inlet, SC, available online at:
