This change is required because of a change in the designation of Pinnacles National Monument to Pinnacles National Park. This is only a name change. No change is being made to fire or public weather forecast zones geographic extents or zone numbers.

An updated fire weather zone shapefile is online at:

An updated public weather zone shapefile is online at:

Partners and users of WFO MTR fire and public weather products will need to update their system(s) to continue receiving correct fire and public weather forecasts/products.
