From: Eli Jacks
 Chief, Fire and Public Weather Services Branch

Subject: New Fire and Public Forecast Zones for Greenbrier County, West
Virginia: Effective Tuesday, October 7, 2014

Effective Tuesday, October 7, 2014, at 1601 Coordinated Universal Time (UTC), 12:01 PM Eastern Daylight Time (EDT), the NWS Weather Forecast Office (WFO) in Blacksburg (RNK), VA, will split its current fire and public forecast zone for Greenbrier County, WV, in two. The current Greenbrier County zone (WVZ045) will be divided into eastern and western zones. The new zones will be assigned new zone names and numbers as shown in Table 1.

These changes will allow long fused watches, warnings, advisories and forecasts for Greenbrier County to be more area specific.

Table 1: New/Old Fire and Public Zone Configuration Identifiers

New Fire/Public Zone Name	New UGC (Z)	Old Fire/Public Zone Name	Old UGC (Z)
-----	-----	-----	-----
Eastern Greenbrier	WVZ507	Greenbrier	WVZ045
Western Greenbrier	WVZ508	Greenbrier	WVZ045

The fire and public zone changes require partners and users to take appropriate action to receive the new zone products using the Universal Geographic Code (UGC) zone code format (Z) listed in Table 1.

A map showing the new zones is online at:

http://origin-www.nws.noaa.gov/om/public/zone/wv_zone.png

An updated public zone shapefile is online at:

<http://www.weather.gov/geodata/catalog/wsom/html/pubzone.htm>

An updated fire zone shapefile is online at:

<http://www.weather.gov/geodata/catalog/wsom/html/firezone.htm>

Products affected by this change are listed in Table 2.

Table 2: Affected Fire, Public and Hydrologic Products

Product Name -----	AWIPS ID -----	WMO Header -----
