Service Change Notice 15-36
National Weather Service Headquarters Washington DC
1032 AM EDT Fri Jun 19 2015

To: Subscribers:
- Family of Services
- NOAA Weather Wire Service
- Emergency Managers Weather Information Network
- NOAAPort
Other NWS Partners, Users and Employees

From: Eli Jacks
Acting Chief, Forecast Services Division

Effective Tuesday August 4, 2015 at 200 pm Eastern Daylight Time (EDT), 1800 Coordinated Universal Time (UTC), the Tropical Analysis and Forecast Branch (TAFB) of the National Hurricane Center will begin accepting Spot Forecast Requests and providing Spot Forecasts. The areas covered are:

- Tropical North Atlantic High Seas forecast from 07 North to 31 North between 35 West and 100 West
- Tropical Northeast Pacific High Seas forecast area from 03.4S to 30 North east of 140 West.

To provide enhanced marine Decision Support Services (DSS) for site specific locations, TAFB will provide a webpage for external spot forecast requests and spot forecasts for requested locations within these areas of responsibility.

TABLE 1: Product Headers for Spot Forecast Requests and Spot Forecasts for which TAFB will issue effective August 4, 2015:

<table>
<thead>
<tr>
