From: Mark Tew
 Chief, Analysis and Mission Support Division

Subject: NWS to Number Public Information Statements: Effective January 8, 2016

Effective January 8, 2016, NWS will begin numbering Public Information Statements (PNSs) to make it easier to track these notices. This change is being made in response to user requests. Previously, PNS names noted only the year issued: pns15information_request.htm, etc.

Now PNS will be numbered sequentially in the same format as Service Change Notices and Technical Implementation Notices:

pns16-01information_request.htm

This change will not affect World Meteorological Organization (WMO) headers or other Advanced Weather Interactive Processing System (AWIPS) coding.

For more information, please contact:

Art Thomas
NWS Physical Scientist
