Service Change Notice 16-16
National Weather Service Headquarters Washington DC
1050 AM EDT Wed May 11 2016

To: Subscribers:
 -NOAA Weather Wire Service
 -Emergency Managers Weather Information Network
 -NOAAPORT
 Other NWS partners and NWS employees

From: Luis Cano
 Director, Office of Operational Systems

Subject: Termination of the NWS Weather.Noaa.Gov (WNG) Web
 Service effective June 15, 2016

The NWS will eliminate the web service found at the following
address effective June 15, 2016:

<http://weather.noaa.gov>

Comments on this change were requested via the following notice:

www.nws.noaa.gov/os/notification/pns16-05decommissioning_web.htm

After addressing all questions, comments and feedback, a
decision was made to terminate the service.

This legacy web site was launched over a decade ago to provide
accessibility to NWS weather products for the general public.
The WNG website will be decommissioned as part of the
NWS Re-Architecture project. The WNG web site is obsolete
because NWS weather.gov site is now the primary hub for NWS web
services and data products. A list of options available for
obtaining weather data normally found via the WNG URL is
provided below.
