Service Change Notice 16-16 Corrected
National Weather Service Headquarters Washington DC
748 AM EDT Mon Aug 1 2016

To: Subscribers:
 -NOAA Weather Wire Service
 -Emergency Managers Weather Information Network
 -NOAAPort
 Other NWS Partners and Employees

From: Luis Cano
 Director, Office of Operational Systems

Subject: Corrected: Termination of the NWS weather.noaa.gov
 (WNG) Web Service: Effective June 15, 2016

Corrected to add updated links for radar monitoring web pages
as follows:

WNG Current Site Data Link	Replacement Links
-----	-----
weather.noaa.gov/monitor/radar3	http://radar3pub.ncep.noaa.gov
weather.noaa.gov/monitor/radar2	http://radar2pub.ncep.noaa.gov

Corrected to change disable date to August 3, 2016.

The NWS will eliminate the web service found at the following
address, effective August 3, 2016:

<http://weather.noaa.gov>

Comments on this change were requested via the following
notice:

[https://www.weather.gov/media/notification/pdfs/
pns16-05decommissioning_web.pdf](https://www.weather.gov/media/notification/pdfs/pns16-05decommissioning_web.pdf)

After addressing all questions, comments and feedback, a
decision was made to terminate the service.

This legacy web site was launched over a decade ago to provide
accessibility to NWS weather products for the general public.
The WNG website will be decommissioned as part of the
NWS Re-Architecture project. The WNG web site is obsolete
because NWS weather.gov site is now the primary hub for NWS web
services and data products. A list of options available for
obtaining weather data normally found via the WNG URL is
provided below.

WNG Site Data Link: Alternative Links

United States Weather: http://weather.gov
Radar Graphics: http://radar.weather.gov
Weather Maps: ftp://tgftp.nws.noaa.gov/fax
