From: John Ferree, Acting Chief
 Severe, Fire, Public and Winter Weather Services Branch

Subject: Discontinuation of the Coded Cities Forecast (CCF) for Weather
Forecast Offices (WFO) in NWS Southern Region who Issue it: Effective
November 22, 2016

Effective Tuesday, November 22, 2016, NWS will discontinue the Coded
Cities Forecast (FPaa4i CCCC, CCFXXX) at WFOs in the NWS Southern Region
(SR) that issue it (see below). NWS asked for comments regarding the CCF
in July 2009:

https://www.weather.gov/media/notification/pdfs/pns09ccf_discontinuance.pdf

Based upon the comments received, NWS discontinued the CCF at all WFOs
except those in Southern Region in November 2010:

https://www.weather.gov/media/notification/pdfs/scn10-48ccf_discontinuance.pdf

Through a continuous review process, SR determined partners and users no
longer require the CCF because other products, such as the eXtensible
Markup Language (XML) products (RXUS30 KWBN / XF03DY and RXUS30 KWBN
/XF07DY) and the Point Forecast Matrices (FOaa5i CCCC / PFMXXX) meet
partner and user needs.

The remaining SR offices issuing the CCF will stop issuing it on November
22, 2016. After this date, no NWS office will issue the CCF product.

Corpus Christi, TX (CRP)
Houston/Galveston, TX (HGX)
Jackson, MS (JAN)
Miami, FL (MFL)
Midland/Odessa, TX (MAF)
San Angelo, TX (SJT)
Tulsa, OK (TSA)
Jacksonville, FL (JAX)
Nashville, TN (OHX)
