 Other NWS Partners and Employees

From: Terrance J. Clark
 Director, WSR-88D Radar Operations Center

Subject: SPG Build 10.0 to begin Beta Test on or around
 March 16, 2020

The NWS Radar Operations Center will begin beta test of Supplemental Product Generator (SPG) Build 10.0 on or around March 16, 2020. The SPG processes weather data from the FAA's 45 Terminal Doppler Weather Radars (TDWR).

SPG Build 10.0 will include the introduction of Level II distribution. The SPG Level II data will follow the same format as NEXRAD Level II.

More details on the SPG Level II format will be available in the SPG Interface Control Document (ICD), which will be online on or around December 18, 2019:

<https://www.roc.noaa.gov/spg/SPGDocumentation.aspx>
