              -NOAAPort  
              Other NWS partners and NWS employees

From:         Darone Jones  
              Director, Water Prediction Operations Division

Subject:      Update: Removal of National Operational Hydrologic  
              Remote Sensing Center (NOHRSC) National Snow Analysis  
              (NSA) FTP services Effective May 1, 2020

Updated to correct feedback contact info at bottom of notice.

Effective May 1, 2020, at 0900 Eastern Standard Time (EST), the Office of Water Prediction (OWP) will discontinue the FTP service that provides National Operational Hydrologic Remote Sensing Center (NOHRSC) National Snow Analysis (NSA) data.

Users who are downloading NSA data via FTP must switch from FTP to HTTPS to avoid a disruption of service. Resources which had been available at

<ftp://ftp.nohrsc.noaa.gov/pub/>  
are now accessible at  
<https://www.nohrsc.noaa.gov/pub/>

For example, users downloading NSA data files from  
<ftp://ftp.nohrsc.noaa.gov/pub/products/collaborators/>  
will need to modify any automated download routines or scripts to use  
<https://www.nohrsc.noaa.gov/pub/products/collaborators/>.
