Technical Implementation Notice 10-63  
National Weather Service Headquarters Washington DC  
655 AM EST Tue Dec 21 2010

TO: NWS Offices  
FAA Customers  
Family of Services Subscribers  
Other Customers of NWS Aviation Forecasts

FROM: Cyndie Abelman  
Chief, Aviation Services Branch

SUBJECT: Change of Terminal Aerodrome Forecast (TAF) service  
for the replacement St. George, UT, Airport (KDXN)  
effective January 12, 2011

NOTE: The following changes have no impact on NOAA Weather  
Wire Service subscribers

Effective January 12, 2011, at 1800 Coordinated Universal Time  
(UTC), the NWS Office in Salt Lake City, UT, will begin  
disseminating the St. George, UT, Airport TAF under a new  
identifier: KDXZ. Routine and updated TAFS will be issued for  
the replacement airport, 24 hours a day.

The effective date of this change is sooner than NWS policy (NWS  
instruction 10-1805). The reduction of normal lead time for  
this change occurred after coordination with local customers and  
the FAA.

NWS personnel will need to add the following identifier to their  
communications systems to receive the new TAF:

Airport	WMO Heading	AWIPS ID
St. George	FTUS45 KSLC	TAFDXZ

In addition the TAF change will be added to the existing TAF  
collectives below which are transmitted to FAA personnel and  
other external customers.

WMO HEADINGS Available to the following customers

FTUS80 KWBC Non-FAA Domestic and Family of Services

FTUS90 KWBC FAA Weather Message Switching Center and  
FAA Facilities

FTUS52 KWBC Global Telecommunication System Customers

Holders of NWS procedural instruction 10-813 (TERMINAL AERODROME

FORECASTS) should make appropriate additions to the appendices.

If you have questions regarding the TAF change, contact:

Larry Dunn  
Meteorologist In Charge  
National Weather Service Office
