Effective Tuesday, September 27, 2011, at 1200 Coordinated Universal Time (UTC), the NWS office at Melbourne, FL, will begin TAF service for Space Coast Regional Airport (KTIX) near Titusville, FL; St. Lucie County International Airport (KFPR) near Fort Pierce, FL; and Martin County Airport/Witham Field (KSUA), Stuart, FL. After that date, routine and updated TAFs will be issued for these airports 24 hours a day.

NWS personnel/offices will need to add the following identifier to their communications systems to receive the new TAFs.

Airport Name                      WMO Heading    AWIPS ID
--------------------------------------- -----------    --------
Space Coast Regional                FTUS42 KMLB    TAFTIX
St. Lucie County International     FTUS42 KMLB    TAFFPR
Martin County Witham Field         FTUS42 KMLB    TAFSUA

In addition, the new TAFs will be added to the existing TAF collectives below, which are transmitted to Federal Aviation Administration (FAA) personnel and other external users.

WMO Headings available to the Following Customers:
FTUS80 KWBC   Non-FAA Domestic and Family of Services
FTUS90 KWBC   FAA Weather Message Switching Center and FAA Facilities
FTUS52 KWBC   Global Telecommunication System Customers
Holders of NWS Procedural Instruction 10-813 (Terminal Aerodrome Forecasts) should make appropriate additions to the appendices.

For questions regarding the TAF additions, please contact:
