Technical Implementation Notice 11-41
National Weather Service Headquarters Washington DC
1034 AM EDT Tue Aug 9 2011

To: Subscribers
- Family of Services
- NOAA Weather Wire Service
- Emergency Managers Weather Information Network
- NOAAPORT
Other NWS partners and NWS employees

From: Joseph Facundo
Chief, NWS Observing Systems Branch

Subject: Removal of Experimental Long-Range Lightning Product
Effective September 8, 2011

Note: The following changes have no direct impact on
NOAA Weather Wire Service subscribers

Effective September 8, 2011, the experimental Long-Range
Lightning Product SFPA41 KWBC will be terminated and will no
longer be disseminated. Please delete this product from
your communications system.

The NWS provider of the Experimental Long Range Lightning Data
(SFPA41 KWBC) has discontinued this experimental product. NWS
has implemented an improved Long-Range Lightning Data Product,
Global Lightning Data 360 (GLD360). This new product will
provide more accurate location accuracy and detection efficiency
to all sites.

The new GLD360 product is provided to all offices, by the use of
vendor software and direct internet connectivity. NWS
Headquarters contact is Harold Daley at 301-713-2093 X190.

For more information, please contact:

Joseph Facundo
NWS Observing Systems Branch
