Dashed black lines are climatology (tenths of inch). Shaded areas are FCS values above (A) or below (B) median. Gray areas are near median.
Summary

• Summer-like weather this week

• A few storms possible today, mainly south of I-40

• Better chance for showers and storms Wednesday and Wednesday night into Thursday
  – A few storms may be strong or possibly severe
  – Damaging winds and large hail the main threats

• Hot and dry this coming weekend – may have first 90° of year!
