Weather Briefing
National Weather Service
Nashville, TN
Thursday, February 4, 2021

Presented by John Cohen
What to Expect

- Rain showers today becoming widespread tonight. Rain briefly changing to snow after midnight. Trace accumulations with a half inch possible upper Cumberland.
- Gusty winds this afternoon and evening 30-35+ mph possible
- Dry Friday and Saturday
- Isolated rain or snow showers Saturday night. No accumulation.
- Dry Sunday and Monday
- Rain for Monday night through Wednesday night...possibly mixed with snow at times northwest(mostly at night). Trace snow amounts possible.
- Generally looking at seasonal temps through the period...except highs in the 50s on Monday. Arctic air remains bottled up to our northwest for now.
Snow Amounts

Snowfall amounts of less than one half inch...mainly higher elevations.
