

# Winter Weather Possible on Monday Morning

New York, NY  
WEATHER FORECAST OFFICE

## OVERVIEW

Light snow will overspread the area early Monday morning. The morning commute may be impacted. The greatest threat for snowfall is across eastern Long Island.

### TONIGHT INTO MONDAY

- **Snow Accumulation** - A trace to an inch across NYC, the northern portions of NJ, western Long Island, Lower Hudson Valley and interior Southern CT.
  - Elsewhere east of the NYC metro, 1-2" is expected.
- **Timing** – Early Monday morning from west to east. Light snow should taper off by Monday afternoon.
- **Impacts** - This may result in hazardous travel for the morning commute as the snow begins to fall early on Monday morning.

### FORECAST UNCERTAINTY

- A track further to the north of the system would bring more snow to the area. Conversely, a track further south would bring less snowfall.

### NWS ALERTS

- Hazardous Weather Outlook. A Winter Weather Advisory may be needed across eastern portions of Long Island should forecast snowfall amounts increase.

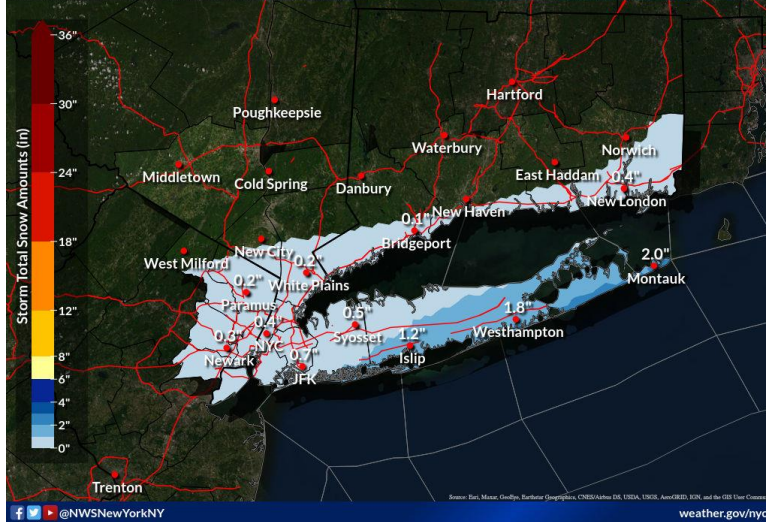

### NEXT BRIEF

- By 6am Monday.
