

# NWS New York, NY Seeks Summer Student Volunteers!

**Description** - The National Weather Service in Upton, NY (OKX) seeks [motivated students](#) that desire to learn more about the operations in a local weather service office. Students will learn many aspects of the day-to-day operations of the office, including warning operations and forecast creation as well as observation and product quality control. In addition, students will have the opportunity to participate in office research and outreach. This will give students the opportunity to determine whether a career with the National Weather Service may be right for them.

**Length of Volunteering** - Averages two to three days per week (~10-20 hours) starting mid May and continuing through early August. This is an unpaid experience.

**Eligibility** - At least a half-time student pursuing an undergraduate (or graduate) degree in meteorology or atmospheric science that has (by summer 2023) completed their sophomore or junior year.

**What we need from you** - A cover letter stating your interest in the volunteering and why we should select you. In addition, please send your resume that includes the coursework you have completed and any related experience, including at least two references.

**Deadline** - Friday, March 3rd, 2023. Applicants will be selected based on a combination of coursework, references, resume, cover letter, and a potential phone interview.

**Please send your information to:** [david.radell@noaa.gov](mailto:david.radell@noaa.gov)
