OKLAHOMA, Western, Central and Southeast

OKZ025>027-029-039>040-046-048>049-052>053

Summary: Nov. 6-7

Thunderstorms moved across central and southern Oklahoma from midday on the 6th through early morning of the 7th. Large hail was reported mainly in south-central Oklahoma, and flash flooding occurred in central and southeastern Oklahoma. The largest hail was reported north of Marlow in Stephens County. One man drowned due to flash flooding near Antlers in Pushmataha County. Other flash flood reports came from Atoka, Bryan, Choctaw, Cleveland, Lincoln, and Oklahoma Counties. See following individual Storm Data entries for further details and additional reports.

Atoka County
Daisy
Flash Flood
06 2300CST
Water covered Highway 43 in Daisy.

Bryan County
Durant
Flash Flood
07 0030CST
Seven people were evacuated from 4 mobile homes due to flash flooding. Damage to the mobile homes was estimated at $5000. Several office buildings in Durant were also flooded, including the offices of Durant Public Schools.

Bryan County
1 N Calera
Flash Flood
07 0100CST
US HWY 69 was closed due to high water.

Pushmataha County
3 NNE Antlers
Flash Flood
07 0600CST
After 6 inches of rain fell in the Antlers area during the evening of the 6th, a creek rose to an estimated 12 feet above bankfull stage overnight. Early on the morning of the 7th, a vehicle was washed by the floodwaters off the county road and into the creek. The driver, a 39-year-old male, drowned. M39VE

OKZ005>008-012-016>017-021>024-027>032-034>053

November 1996

US HWY 69 was closed due to high water.

Severe thunderstorm wind damage was reported west of Geary in Blaine County, in Apache in Caddo County, southeast of Burneyville in Love County, west of Walters in Cotton County, in Norman in Cleveland County, in Purcell in McClain County, and in Kingston in Marshall County.

Repeated heavy rains resulted in flash flooding, particularly in northern Oklahoma between Alva and Ponca City. Flash flooding was also reported in parts of central Oklahoma.

See following individual Storm Data entries for further details and additional reports.

Alfalfa County
Countywide
Flash Flood
16 1230CST
Widespread flash flooding was reported across Alfalfa County. The most extensive flooding of roads occurred in Aline, Byron, Amorita, and Cherokee. Eagle Chief Creek rose out of its banks. Water covered the North Grand bridge and twenty homes were flooded in Cherokee. All roads north and south of Cherokee were closed, covered by at least one foot of water.

Grant County
2 N Renfrow
Flash Flood
16 1330CST
Highway 81 was closed due to high water.

Lightning struck and set fire to a wood frame house. The house, valued at $35,000, was destroyed.

24 0600CST 1930CST 0 0 Ice Storm
A strong arctic cold front moved through Oklahoma on Sunday November 24th. Temperatures that had been in the 60s and 70s on Saturday fell into the 20s by Sunday evening. Precipitation began as rain early Sunday morning then changed to sleet then freezing rain then finally to snow as the temperatures plummeted and the cold air pushed farther south. Ice accumulated up to 1/2 inch thick mainly southeast of a line from Shawnee to Chickasha to Frederick, with ice up to 1 inch thick from Holdenville to Ada to Ardmore and southeastward.

Damage across southeastern and southcentral Oklahoma was severe. Power was out to a large portion of the area due to icing of power lines and tree limbs. Electric companies throughout southcentral and southeastern Oklahoma estimated that over 152,000 people were without power at some time during the storm. It took as long as 3 days to restore power to some customers.

Bryan County was particularly hard-hit by ice up to 1 inch thick. Telephone and power services were out almost countywide, including in Durant, Calera, Colbert, Cartwright, Caddo, and Bokchito. Officials in Durant reported that trees and limbs were down on every block in town. An old peanut dryer building collapsed in Bokchito due to the weight of the ice. A radio station was forced off the air when its transmitter was covered with 2 to 3 inches of ice. A second 500-foot radio tower fell near Lake Texoma due to the weight of the accumulated ice.

Carter County reported similar troubles, with power outages and numerous limbs and trees down in Ardmore, Lone Grove, Oilpatch, Ringling, Fox, Healdton, and Wilson.

In Pushmataha County, a 190-foot microwave tower used by OETA to transmit public television collapsed due to the weight of ice. The tower, which was located in a wooded area between Tuskahoma and Clayton, was completely destroyed.

Trees, limbs, and power poles were broken by the weight of the ice throughout southeastern and southcentral Oklahoma. Jefferson County reported 6 power poles broken west of Ringling and over 100 poles fell in Stephens and Cotton Counties east and south of Comanche and northeast and southeast of Marlow.

Officials in Pontotoc County reported 20 poles and numerous trees and limbs down around the county with the worst damage in Fitzhugh. Seminole County also suffered broken poles, crossarms, trees, and limbs.

Heavy snow fell across northwest Oklahoma, beginning in the morning in far northwest Oklahoma and then spreading south and
OKLAHOMA, Western, Central and Southeast

eastward into north-central and west-central Oklahoma during the day. By the time the snow stopped early in the evening, areas from Medford to Watonga to Erick and northwestward had accumulated at least 2 inches of snow, with over 4 inches northwest of a line from Cherokee to Taloga to Cheyenne. All of Ellis County and the southwestern third of Harper County received over 6 inches of snow, with the heaviest snow in a band across southwest Harper County, where 10 inches fell in and around May.

TEXAS, Western North

TXZ086-089 Wichita - Archer

16 1855CST 1915CST 0 0 Summary: Nov. 16

Early evening thunderstorms in Wichita and Archer Counties produced severe wind gusts estimated at 60 mph. Severe thunderstorm wind damage was reported in and near Wichita Falls and in Electra in Wichita County and in Lakeside City in Archer County. See following individual Storm Data entries for further details and additional reports.

Wichita County

1 SW Wichita Falls 16 1858CST 0 0 Thunderstorm Wind (G52)

Two utility poles and one traffic light were blown down by winds estimated at 60 mph.

Electra 16 1900CST 0 0 Thunderstorm Wind

A large tree was split by severe thunderstorm winds and fell onto a new pickup.

Wichita Falls 16 1900CST 0 0 Thunderstorm Wind

Severe thunderstorm winds damaged signs, trees, and fences in an area bounded by Kell, CertainTeed, Fairway, and 3 blocks south of Southwest Parkway. Numerous sections of privacy fence, limbs up to 4 inches in diameter, and trees up to 2 feet in diameter were downed in this area.

Also, a recycling shack was destroyed by severe thunderstorm winds. A Sonic Drive-in had sign and awning damage, and a gas station suffered significant damage to its canopy. Two signs at a bread store were destroyed and two billboards were blown down by the severe winds. An apartment complex also lost some shingles from the roof of some of its buildings.
