Widespread damage occurred as a result of very strong winds that moved through Alfalfa county. Several silos at the Alfalfa County Feeders were destroyed. Three hundred thousand bushels of corn was destroyed inside the silos. Several outbuildings were destroyed and numerous homes sustained minor roof damage from Cherokee to Ingersol. Widespread tree damage was reported. Several 100-foot douglas fur utility poles and power lines were blown down on US Highway 64, causing it to be closed for a short period of time. Monetary damages were estimated.

		Injuries	Crop Dmg	

Widespread damage occurred in and around Custer county. A Cessna 152 airplane was flipped, with the nose gear of two more collapsing in Clinton. Three vehicles were blown over on Interstate 40. One of the drivers was injured. Numerous barns were destroyed from Clinton to Custer City, with the contents of the barns also severely damaged. Several buildings sustained roof damage. Superior Well Services had its roof completely blown off and the bait shop at Foss Lake destroyed. Hundreds of power poles and trees were blown down around Custer county. The top of a large grain bin Sentinel Farmer's Co-Op was destroyed and another grain bin sustained severe damage. The loading arm which feeds grain from the bin to railroad cars broke. Over 90,000 bushels of wheat were destroyed as a result of the damage. Monetary damages were estimated.

Substantial wind damage was reported in Altus. One hundred and seventy-nine homes sustained some kind of damage, with two destroyed, five with major damage, forty-three with minor damage, and one hundred twenty-nine affected. Seventeen businesses were damaged, with two destroyed, four with major damage, and eight with minor damage. One hundred and seventy power poles and numerous trees were blown down. Sixty percent of the town was without power at one point. Roof damage was reported to several buildings. Part of the roof at Altus Junior High caved in. Several buildings on East Broadway had roofs blown off or collapsed. Highway 62 was closed on the east side of town due to debris.. One injury was reported when a semi-truck was blown over injuring the driver. A train car also was overturned on the southeast side of town. No injuries were reported with it. Monetary damages were estimated.

A stationary front began lifting north as a warm front during the afternoon hours, ahead of a dry line that was located over the western Texas panhandle. Thunderstorms developed south and west of the warm front and moved into western Oklahoma. A supercell storm moved into Ellis county, with hail over three inches in diameter reported. More widespread thunderstorms developed during the evening hours, with storms affecting southwest Oklahoma with large hail and heavy rain. No damage occurred with the thunderstorms.

(OK-Z004) HARPER, (OK-Z009) ELLIS			
	06/15/08 00:00 CST	0.10M	Drought
	06/30/08 23:59 CST	0	

Although much of Oklahoma reported above average rainfall totals, northwest Oklahoma remained dry. As a result, D2 drought set in over a small area of Harper and Ellis counties. The wheat harvest was minimal, and some farmers were forced to sell off their cattle. The drought caused Gov. Brad Henry today send a letter to U.S. Secretary of Agriculture Ed Schafer requesting disaster assistance for farmers and ranchers. Luckily in this area, the rains returned, albeit a little late, to northwest Oklahoma, prompting officials to lower the drought monitor to D1 and then D0. Monetary damages were estimated.
