Lincoln County Emergency Management reported a path of damage from a tornado along 108th Street (E0990 Road) from just west of E3310 Road to just east of Fowler Road (N3340). From there, the tornado turned northeast and dissipated northeast of E0980 Road and N3350 Road. A few homes received roof and/or siding damage, barns and other outbuildings were damaged or destroyed and power poles were damaged.

A tornado developed within a squall line just northwest of the town of Konawa and moved east-southeast through the north side of Konawa. Numerous trees were downed and fell into homes creating significant roof and siding damage.

Isolated thunderstorms produced scattered hail across northern Oklahoma while a line of thunderstorms produced extensive severe
