LOGAN COUNTY --- 2.0 S SEWARD [35.77, -97.50], 5.3 SSW SEWARD [35.73, -97.51]				
	08/26/19 19:55 CST		0.15M	Tornado (EF1, L: 3.40 mi , W: 500 yd)
	08/26/19 20:01 CST		0	Source: NWS Storm Survey
The tornado developed near the intersection of West Simpson Road and Kelley Avenue and moved south-southwest. Damage was relatively spotty along the track and consisted primarily of broken tree limbs and branches, along with some snapped and uprooted trees. The most significant structure damage was to a home southeast of Simmons Road and Santa Fe Avenue where a large portion of the roof was removed. The tornado crossed Waterloo Road into Oklahoma County, but dissipated quickly south of the county line.				
Damage was also noted north and east of the tornado track, although evidence suggested this was the result of a large surge of straight line thunderstorm winds.
