VI.5.3C-SYSTEM-CPUCHECK   PROGRAM FCST FUNCTION CPU TIME CHECK
                            (CPUCHECK)

Purpose

Function CPUCHECK prints the elapsed and total CPU time used.

HCL Input

Input to Function CPUCHECK is through the Hydrologic Command Language
(HCL).

The input consists of Techniques and their Arguments (see Section
VI.5.3C-SYSTEM-CPUCHECK-TECH [Hyperlink]).

Sample HCL Input

The following HCL input resets the elapsed and total CPU time used:

    @SETOPTIONS
     RESETCPU(1)
    @COMPUTE CPUCHECK
    @SETOPTIONS
     RESETCPU(0)
