

VI.6.3-PPDUTIL-CHECKRRS PROGRAM PPDUTIL COMMAND CHECKRRS

Purpose

Command CHECKRRS checks all of the RRS data records in the Preprocessor Data Base for observation dates that are not in chronological order.

Input Data

<u>Card</u>	<u>Field</u>	<u>Format</u>	<u>Contents</u>
1	1		'@CHECKRRS'
	2	A?	Beginning date <u>1</u> /
	3	A?	Ending date <u>1</u> /
	4		'DETAIL' <u>2</u> /

Notes:

- 1/ If no hour is entered then the full hydrologic day ending on the date entered is assumed. The data format is given in Section VI.5.2B.
- 2/ Field is optional. If specified a listing of all dates not in chronological order will be printed.

Examples

@CHECKRRS 0812 081619CDT
