

## VIII.4 HOW TO ADD A FORECAST COMPONENT OPERATION

This Chapter describes the following information about how to add an Operation to the Forecast Component.

- o what routines must be provided
- o rules for naming conventions, timing control, saving carryover, error handling and debugging facilities
- o the User's Manual documentation that must be provided

The contents of this Chapter is:

<u>Content</u>	<u>Section</u>
Introduction	VIII.4.1
Subroutines for Operations	VIII.4.2
Carryover Transfer	VIII.4.2-COX
Execution	VIII.4.2-EX
Parameter Input	VIII.4.2-PIN
Print Carryover	VIII.4.2-PRC
Print Parameter	VIII.4.2-PRP
Card Punch	VIII.4.2-PUC
Operations Table Entry	VIII.4.2-TAB
Documentation for Operations	VIII.4.3
User Documentation	VIII.4.3A
System Documentation	VIII.4.3B
