

# MARCH 7-8 2008 SNOWSTORM

One of the largest snowfalls since the December, 2004 winter storm occurred on March 7-8. Strong winds associated with this storm made accurate snow measurements difficult. Drifts were well over a foot in the Pennyryle region of western Kentucky. At Evansville, this was the largest snowfall since December of 2004.

This picture of Haley Garrison with her "snow bunny" was submitted by Kay Smith of Reidland, KY.
