

# NWS Philadelphia/Mount Holly

*Now accepting 2026 summer student volunteer applications!*

## Why you should volunteer

- Gain valuable operational meteorology experience by applying skills and knowledge learned in school
- Receive education and training on the operations of a NWS weather forecast office
- Build important communication skills through interaction with our partners
- Opportunity to work on a project with topic of your choice that benefits both you and our office's operations
- Make connections with professionals in your field
- More info:  
[weather.gov/phi/student\\_opportunities](https://weather.gov/phi/student_opportunities)

## Requirements

- College student currently enrolled at least half time in a Meteorology, Atmospheric Science, or related major (including graduate school)
- Live within commuting distance of the office
- Submit your resume, transcript, and cover letter by **March 6, 2026** to: [robert.deal@noaa.gov](mailto:robert.deal@noaa.gov)

## When and Where

- Students will volunteer approximately 10-20 hours per week during the course of the summer
- Hours and schedule are flexible based on availability and other commitments (summer jobs, classes, etc.)
- Applicants will be selected based on a combination of coursework, references, resume, cover letter, and an interview.
- Our office is located at: 732 Woodlane Road, Mount Holly, NJ 08060

*This is an unpaid opportunity, but the experience you will gain is invaluable!*
