

Oregon's Rivalry Game Day Weather Data

Rivalry Game Day was known as the Oregon Civil War from 1929 until 2020. In 2020, both University of Oregon and Oregon State University announced that they would no longer use the former name. .

Annually, the University of Oregon (Eugene) and Oregon State University (Corvallis) meet late in the college football regular season, with Eugene hosting in the odd-numbered year and Corvallis in the even-numbered year. This game typically falls in mid to late November. When this rivalry first started, in 1894, it was called the "Oregon Classic" or "State Championship Game," and was between the University of Oregon Webfoots and the Oregon Agricultural College (OAC) Orangemen (sometimes called the Aggies). OAC became the Oregon State College in 1937, then Oregon State University in 1961.

The annual meeting between Eugene and Corvallis did not occur in 1900, 1901, 1911 (*cancelled due to post-game rioting in 1910*), 1943 and 1944 (*due to WW2*). There were 2 games in 1945, as returning servicemen boost enrollments at both schools, enough such that both schools agree to play twice. Some games were played in other locations other than Corvallis and Eugene. In 1912 and 1913, the game was played on a neutral field in Albany, in an effort to minimize potential rioting that occurred in 1910 and led to the cancelation of the 1911 game. Portland hosted seven games (1908, 1917, 1933, 1934, 1938, 1950 and 1952) at Multnomah Stadium, what is now called Providence Park.

Rivalry Game Day Averages and Extremes

Afternoon Maximum Temperature	51°
Morning Minimum Temperature	37°
Average Daily Rainfall	0.32"

Warmest Game Day	13 Oct 1945	afternoon high of 70°
Chilliest Game Day	23 Nov 1985	afternoon high of 27°
Wettest Game Day	14 Nov 1896	with rainfall of 3.02"
Snowiest Game Day	19 Nov 1977	flurries, but no accumulation

note: game on 25 Nov 1961 was dry, but there was still 1 inch of snow on the ground, from snow that fell on 23rd and 24th.

<i>Afternoon Max Temp</i>	≤ 32°	in 30s	in 40s	in 50s	in 60s	≥70°
Number of Days	2	6	40	67	12	1
<i>Frequency of all days</i>	2 %	5 %	31 %	52 %	9 %	1 %

<i>Daily Total Rainfall</i>	0.00"	Trace	≥0.01"	≥0.10"	≥0.50"	≥1.00"
Number of Days	45	19	63	45	26	13
<i>Frequency of all days</i>	35 %	15 %	49 %	36 %	21 %	11 %

Game Time/During Game Averages

Kick-Off Temperature	47°
Cloud Cover	80-85% (Mostly Cloudy)
Relative Humidity	~80%
Wind Direction/Speed	South 8 to 9 mph

Note: *Limited hourly observations for Corvallis. Hourly data for Corvallis available since 2006, and for Eugene since 1949. So, average is biased more towards Eugene data.*

Rivalry Game Day: Expanded Statistics with During Game Data

In 1949, National Weather Service records allowed for more detail of weather data at start of and during the game, not just for the day. Following are the expanded weather for game-time, such as kick-off temperature (KoT) and percentage of sky covered by clouds (%CC). Also listed are the afternoon maximum (HI) and morning minimum (LO) temperatures and rainfall for the day.

Game Day & Site			Game Time and During Game Weather					For the Day		
			Sky/Weather	%C	KoT	RH%	Avg. Wind	HI	LO	Rain
1949	19 Nov	EUG	Cloudy	100	43	95	N 6 mph	43	32	0
1950	18 Nov	Portland	Cloudy. Fog.	100	40	92	NW 7	40	36	Trace
1951	24 Nov	EUG	Partly cloudy	70	48	70	W 2	51	35	Trace
1952	22 Nov	Portland	Partly cloudy	50	52	38	E 17	52	35	0
1953	21 Nov	EUG	Rain	100	53	83	S 24	53	42	1.20
