

Severe Thunderstorm Outlook

For Thursday, April 11th

When Thunder Roars, Go Indoors!

Threat Level 1 out of 5
Marginal Risk

Overview

- A strong storm system will move through the eastern United States late tonight through Thursday night, bringing windy conditions and rounds of showers and thunderstorms. Some storms may become severe.

Timing

- 12 Noon through 9 PM.

Hazards

- Damaging wind gusts and an isolated tornado possible. Gusts of 40 to 45 mph may occur even away from storms.

What does a **Marginal Risk** Mean?

Isolated severe thunderstorms possible.
Limited in duration and/or coverage and/or intensity.
