Red Flag Warning Continues

until 9 PM MDT Tuesday

Primary concern will be lightning-caused new fire starts given dry rangeland conditions
Lightning Could Spark New Fires

→ Isolated early afternoon thunderstorms will become more widespread by late afternoon

→ Best chance for thunderstorms will be from 3 PM to 7 PM

→ Lightning could result in new fire starts

→ Gusty outflow wind around 40 mph could cause erratic fire behavior

→ 0.10 to 0.20” of rain possible with stronger thunderstorms
Temperatures

➔ Daytime highs will be around 10 degrees cooler than Monday

➔ These temperatures are still above normal for mid-July
