

# THUNDERSTORMS

## WATCH VS. WARNING

### Severe Thunderstorm Watch: Be Prepared!

Severe thunderstorms are possible in and near the watch area. Stay informed and be ready to act if a severe thunderstorm warning is issued. Watches are issued by the Storm Prediction Center ([www.spc.noaa.gov](http://www.spc.noaa.gov)) for counties where severe thunderstorms may occur. The watch area is typically large, covering numerous counties or even states.

### Severe Thunderstorm Warning: Take Action!

A severe thunderstorm has been indicated by radar or reported by a spotter producing hail one inch or larger in diameter and/or winds exceeding 58 mph. Warnings indicate imminent danger to life and property. Take shelter in a substantial building. Get out of mobile homes that could be blown over by high winds. Severe thunderstorms can produce tornadoes with little or no advance warning.

## THUNDERSTORM SAFETY

### FOR YOU AND YOUR FAMILY

## BEFORE A THUNDERSTORM

- **Be Weather Ready:** Check the forecast often to find out what you can do before severe weather strikes. Preparation is key to staying safe and minimizing impacts.
- **Be Weather-Ready:** Check the forecast regularly to see if you're at risk for severe thunderstorm. Listen to local news or a NOAA Weather Radio to stay informed about watches and warnings.
- **Sign Up for Notifications:** Know how your community sends warnings. Check media severe thunderstorm alerts available in your area.
- **Create a Communications Plan:** Have a family plan that includes an emergency meeting place. Pick a safe room in your home such as a basement, storm cellar or an interior room on the lowest floor with no windows. Get more details at <https://www.ready.gov/make-a-plan>
- **Practice Your Plan:** Conduct a family severe thunderstorm drill regularly so everyone knows what to do if a damaging wind or large hail is approaching. Don't forget pets.
- **Prepare Your Home:** Keep trees trimmed near your house. If you have time before severe weather hits, put away loose objects, close windows and doors, and move valuable objects inside or under a sturdy structure.
- **Help Your Neighbor:** Take CPR training so you can help if someone is hurt during severe weather. Conduct a drill with elderly or disabled neighbors.

## DURING A THUNDERSTORM

- **Stay Weather Ready:** Continue to listen to local news or a NOAA Weather Radio to stay updated about watches and warnings.
- **At Your House:** Go to your secure location if you hear a severe thunderstorm warning and damaging wind or large hail is approaching. Take your pets if time allows.
- **At Your Workplace or School:** Stay away from windows if you are in a severe thunderstorm warning. Damaging wind or large hail could blow heavy object at windows. Do not go to large open rooms such as cafeterias, gymnasiums or auditoriums.
- **Outside:** Go inside a sturdy building immediately if severe thunderstorms are approaching. Sheds and storage facilities are not safe. Taking shelter under a tree can be deadly. The tree may fall on you and you are at risk of getting struck by lightning.
- **In a vehicle:** Being in a vehicle is safer than being outside; however, if you have time, drive to closest secure shelter.

## AFTER A THUNDERSTORM

- **Stay Informed:** Keep your NOAA Weather Radio or portable radio with you in your safe place/ shelter, so you can listen for updates on tornado watches and warning and know whether the threat has passed.
- **Contact Your Family and Loved Ones:** Let your family and close friends know that you're okay so they can help spread the word. Power may be out and phone lines may be down.
- **Assess the Damage:** After you are sure the severe weather threat has ended, check your property for damage. When walking through storm damage, wear long pants, a long-sleeved shirt and sturdy shoes. Contact local authorities if you see power lines down. Stay out of damaged buildings. Be aware of insurance scammers if your property has been damaged.
- **Help Your Neighbor:** If you see someone injured, call 911 then, if you are trained, provide first aid until emergency responders arrive.
